

SHARE THE RIDE

to improve Lebanon's environmental status

Routes:

- Beirut → Zahle (→ Baalbeck) → Beirut
- Beirut → Tripoli (→ Akkar) → Beirut
- Beirut → Tyre (→ Nabatieh) → Beirut

Meeting Points:

- Beirut → [Sodeco Square](#)
- Zahle → [Homecuisine.lb](#)
- Tripoli → [Mashroo3 ahwe](#)

Parking available at all meeting points

Benefits:

- Air quality improvement (less tailpipe emissions)
- Environmental footprint reduction
- Collaboration between departments / agencies
- Operational costs reduction
- Less road congestion
- Less traffic accidents

Departure: 8.00 AM

Return: 3.00 PM

Safety & Security:

- MoU & SOP signed between participating agencies
- Contracted & trained drivers
- Full coverage insurance
- Movement tracking & speed limit

How to join?

1. Start planning your days at destination according to departure times
2. Ask explicitly your fleet manager to allocate your movements to ride-sharing
3. Don't be late, the vehicles leave on time | Bring your organisation's ID card

Current Participants:

It makes me feel less guilty to do so many movements per week

We are working on avoiding transport emissions and its' root causes: individual cars. You can help!

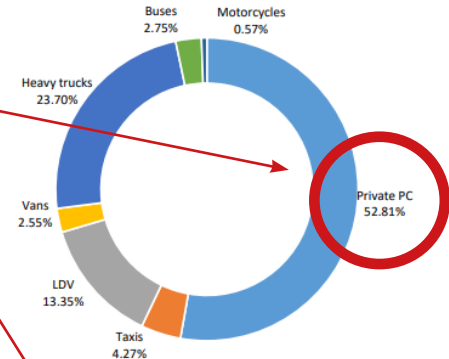

Figure 32: Emissions distribution per type of vehicle in 2018

Why is your agency committed to this Project?

Coherence:

- Alignment with Do No Harm Principle
- Concretely walk-the-talk of global environmental commitments
- Reduce operational support costs

Accountability:

- The savings generated on support costs can be allocated to program costs
- The project matches increasing environmental requirements set by donors.

Innovation:

- To explore new ways of operating
